Summary

Graduate of Farzanegan Amin 2 High School, part of Iran's National Organization for Development of Exceptional Talents, with strong academic performance in biology, laboratory science, English, and scientific writing. Published co-author with achievements in science education, violin, painting, and professional swimming. Interested in biology, biotechnology, biomedical research, and healthcare innovation.

Skills

Scientific: Basic biology and chemistry experiments, laboratory safety, scientific reporting, literature review

Technical: Microsoft Word, PowerPoint, Excel, educational content development, online presentation

Creative: Oil painting, violin performance, visual communication, educational script preparation

Professional: Time management, teamwork, responsibility, communication, structured writing

Languages: Persian (Native), English (IELTS Academic 6.5)

Education

High School Diploma — Farzanegan Amin 2 High School — Isfahan, Iran

Sep 2022 – Jun 2025

- Graduated from the Experimental Sciences program with a cumulative GPA of **18.33/20**.
- Studied at a selective school affiliated with Iran's National Organization for Development of Exceptional Talents.
- Earned outstanding grades in Biology I (**19.25**), Biology II (**19.25**), Biology III (**19.50**), Laboratory Science I (**19.50**), and Laboratory Science II (**20.00**).
- Achieved English grades of **20.00**, **20.00**, and **19.50**, and scientific writing grades of **19.75**, **20.00**, and **20.00**.

Research and Publication

Brain Tumor Detection Using Deep Learning

2024

- Co-authored a study comparing self-attention-based ResNet and EfficientNet architectures for brain tumor detection.
- Contributed to literature review, scientific writing, result interpretation, and manuscript preparation.
- Published in the proceedings of the 9th International Congress on Electrical, Computer and Mechanical Engineering.
- Publication: [A Study on Self-Attention-Based ResNet and EfficientNet for Brain Tumor Detection](#).

Science Education

Biology and Science Educational Content Creator — YouTube

Nov 2025 – Present

- Creates structured educational videos explaining biology and related scientific topics to students.
- Prepares lesson scripts and presents scientific concepts through clear, accessible explanations.
- Publishes educational content through the [Yasmin Vashagh YouTube channel](#).

Creative Portfolio

Painting

Ongoing

- Paints original artwork, including oil paintings, and received second place in a student painting competition.
- Selected works: [Painting Portfolio](#).
- Additional artwork is available through [Instagram](#).

Violin Performance

Ongoing

- Performs violin and earned first place in a regional music competition.
- Selected performances: [Violin Performance Clips](#).
- Additional performances are available through [Instagram](#).

Honors, Awards, and Activities

- **First Place, Regional Violin Competition** 2022 – 2023
- **Second Place, Oil Painting Competition** 2023 – 2024
- **Second Place, 100 m Butterfly Swimming, Ages 13–14** 2018 – 2019
- **Third Place, 100 m Freestyle Swimming, Ages 11–12** 2017 – 2018
- **Third Place, 4×50 m Freestyle Relay, Ages 11–12** 2017 – 2018
- **Third Place, Team Swimming Competition, Ages 11–12** 2017 – 2018
- Certificate of participation in the **Artificial Intelligence and Neuroscience Convergence Seminar**. 2025
- Certificates of appreciation for helping organize a **Humanities Workshop** and the **Gordafarid Literary Workshop**. 2023
